Environmental Health Administration Course
Ryerson Polytechnical Institute

This is a six subject course normally taken over a three year period, by correspondence or evening class at Ryerson. The course is considered a Senior Certificate in Public Health Inspection, and designed for inspectors seeking or in supervisory positions. I would request that consideration be given to the recent letter from the Local Health Services Branch outlining financial assistance to students taking this course. Reimbursement by the County upon successful completion of each subject would serve as incentive to take the course thus improving the technical and administrative ability of our inspectors.

Subject	**Correspondence Fee**
Economics	$90.00
Human Factors in Administration	90.00
Statistics	90.00
Government and Political Science	90.00
Public Administration	90.00

FEBRUARY REPORT OF THE CHILDREN'S AID BOARD
(as submitted by the Children's Aid Board)

To the Warden and Council of the County of Peel.

Your Children's Aid Board begs to report as follows:

A meeting of the full board was held Wednesday, February 4, 1970, at 8:00 p.m. with the following present:

From County Council: H. M. Allan, J. E. Archdekin.

Non-Council Members: B. Deacon, Mrs. K. Bellian, G. Gardhouse, C. Jenkins, S. Rutherford, R. Searle, Mrs. F. Tkachuk.

1. The report of the nominating committee for the Annual Meeting for Directors for 1970 was presented and approved.

2. The Annual Meeting of the Society will be held on Wednesday, March 4, 1970, at 8:00 p.m. at Streetsville United Church.

3. A communication was received from the Children's Aid Society of Halton County expressing appreciation and interest in the Peel Society's invitation to discuss implications of Regional Government for both Societies.

4. A communication was received from Peel Community Services in respect to the allocation to the Society for 1970 of the sum of $16,500.00 to be used in the program of marital counselling. The Society however does not now consider this area of community work as the function of the Society and the money is being utilized to purchase service on behalf of the community from a family service agency. In the meantime the Agency has asked for a intensification of study by the Social Planning Council as to the validity of developing an adequate family service agency, either Peel based or across the area of the two Counties. A lengthy policy statement has been prepared and Board members will study this in order to be prepared to give consideration to it as a resolution at the March Board meeting. A copy of this proposed statement is being forwarded to the County.

5. The major part of the evening was on discussion and approval of revisions made since the last meeting to the 1970 Estimates as originally presented, resulting in a reduction of $25,000.00.

6. The Finance Committee report indicated that the Estimates had been based earlier in the year on a projected figure of a $25,000.00 deficit, on the year in Child Care operations. These figures were close to the actual as the auditors report just received indicates this deficit to be $26,000.00.

7. All members of County Council are extended a cordial invitation by the Society to the Annual Meeting.

Received, February 19, 1970.

L. H. PARSONS,
Reporting Member.

Finances

County payment of $900,000 received December 31, 1969, for a total now of $1,900,000, out of a total commitment of $2,850,000.

Financing will be satisfactory up until about May, 1970. From then, until the construction program has been audited, inspected, etc., by the Provincial Government, final payment of grants from the Federal and Provincial levels will not be available. Therefore, we will require borrowing perhaps up to $1,500,000 during that estimated six to nine month period.

If County were able to advance their financial assistance prior to December 31, 1970, this would save us considerable money in interest.

Received March 19, 1970.

REPORT BY THE COUNTY ENGINEER RE CONSTRUCTION OF THE SOUND BARRIER

June 16, 1970

Chairman and Members,
Roads Committee,
County of Peel.

In accordance with your request of to-day's date, the following is the information requested.

1. The subdivision on the southerly limit of the Queensway was filed in 3 stages as follows, Plan 659 on November 6, 1961, Plan 685 on May 2, 1963, and Plan 731 on March 16, 1965.

2. On March 17, 1966, McCormick and Rankin were engaged by the Townships of Toronto and Etobicoke to undertake a functional study of the extension of the Queensway from Highway 27 westerly to Dixie Road.

3. The above report states as follows—"West of Etobicoke Creek, the only logical location and the only route considered was along the H.E.P.C. right-of-way to a point approximately 1,300 feet west of Dixie Road. This route has been the intended location of the Queensway Extension for some years and, since 1963, negotiations have taken place between the Township of Toronto and Ontario Hydro Electric Power Commission regarding the proposed construction of special steel transmission towers to facilitate construction of an urban arterial within the H.E.P.C. right-of-way."

4. Previous to this, Caterpillar Road had been considered by the Township as a possible location for the Queensway Extension but the construction of a factory in 1960 on the proposed line west of Dixie Road ruled out this possibility.

5. The road was assumed by the County in 1969 and contruction was authorized. The planning report recommended that the road be 6 lanes from the Etobicoke Bridge easterly and 4 lanes westerly with 6 lanes probably required by 1986.

6. The wall was not included in the original contract as it was felt that the neighboring properties should have a voice in what was to be done. For this reason a proposal was prepared by the Consulting Engineer which consisted of a 9 foot concrete wall along those properties immediately bordering on the Queensway right-of-way at an estimated cost of $60,000.00. This was presented at a meeting of the property owners and the Road Committee. A

ten foot wall was requested and also that the wall should continue to Greenhurst Avenue being the easterly limit of the houses. The revised estimated cost was $85,000.00. This information was presented to County Council at the May session.

7. In order to construct the wall, it is required to drive piles and, as the successful tenderer for the road and bridge would have a pile driver on the site, it was most likely that his price would be the lowest of any received. Also, it was imperative that the wall be commenced as soon as possible. This was discussed with the Department of Highways and no objection was raised. The Contractor was then notified to start fabricating the panels for the wall and it is hoped to start installation on June 22nd.

Respectfuly submitted,
"R. W. Knight"
R. W. Knight, P.Eng.,
County Engineer.

PRESENT ADMISSION POLICY
HOME FOR THE AGED

1. When initial enquiry is made, immediately a file is set up showing date of enquiry and pertinent information pertaining to the health of the Applicant, as well as next of kin, who will be kept informed as the application proceeds.

2. At the time of the initial enquiry, attempts are made to determine just what type of care the Applicant would require, for example, Normal, Special or Bed Care and if necessary, medical information is obtained to establish the exact area. The purpose here being, so that the Applicant may be placed on the correct

care area waiting list or if at all possible, if a vacancy does exist, then the application is processed immediately.

3. The applications are processed according to a seniority basis, that is, the initial enquiry date is adhered to all times and as vacancies occur in the respective areas, the applications are processed by that date.

4. All requests for applications are reviewed frequently in order to establish if the type of care required has changed and if this is the case, then they are placed on that particular care area waiting list according to their original date of enquiry.

5. As vacancies occur in the various care areas, the applications are processed on a seniority basis and presented to the Committee of Management for their consideration and if approved, the Applicant is admitted as rapidly as possible.

6. In the case of an application being deferred by the Committee, for example, medical reasons, this would not cause the Applicant to lose seniority on the respective care area waiting list.

7. I would point out that we endeavour to, at all times, assist the Applicant to obtain temporary living accommodation until the Applicant may be admitted to the Manor, for example, Nursing Home.

THE CORPORATION OF THE COUNTY OF PEEL

SCHEDULE "A" TO BY-LAW NUMBER 2276

COUNTY OF PEEL

PERSONNEL POLICIES

The aim of this pamphlet is to provide all employees of the Corporation of the County of Peel with detailed information regarding the terms and conditions of their employment. The employer for all County Departments is the County of Peel.

It will be found to be in the best interest of the employee to become thoroughly familiar with the contents by devoting some study to the text.

After a study of the text, any doubtful terms or conditions should be referred to the Supervisor to whom the employee has been posted. If the questioned matter cannot be resolved within the Department, arrangements will be made for the employee to present the problem to Payroll.

In this pamphlet the male pronoun shall also denote the female pronoun.

Employees who are under a collective agreement do not fall under the provisions of these personnel policies.

Probationary Period

Every employee of the Corporation is required to serve a probationary period prior to confirmation of employment. The probationary period varies according to established procedures in the several departments.

Employee Classification

All employees of the Corporation are classified as follows:

(a) Permanent Full Time
(b) Permanent Part Time
(c) Temporary Full Time
(d) Temporary Part Time
(e) Casual

These classifications are for payroll and fringe benefit purposes only and have no bearing on terms of employment within individual departments.

Permanent Full Time and Permanent Part Time employees are eligible for all benefits as outlined in this pamphlet. (Except where noted.)

Temporary and Casual employees do not qualify for any benefits as outlined, with the following exceptions:

(a) Temporary employees whose employment is in excess of three months must join the Ontario Hospital Services Commission Insurance Plan and the Ontario Health Services Insurance Plan and pay the full premium.

(b) Vacation pay in accordance with The Employment Standards Act and Regulations will be paid on December 31st of each year or on termination.

Pay Dates

Employees on yearly salary have 26 or 27 pay periods per year. Hourly paid employees are paid bi-weekly.

A list of pay dates for the year is posted up in each department.

When a pay date falls within a vacation period, advance pay will be issued, on request, on the previous pay date.

Job Classification

Department Heads exercise a job evaluation and merit rating plan for all employees. For each position there is a salary scale or an hourly rate.

Hourly rated employees transferred for the Corporation's convenience for a period of one full shift or more, or for any overtime, to a higher rated classification, shall be paid the higher rate for all time worked in that classification.

The individual employee's qualifications for his particular job are appraised.

Grievances

Employees should feel free to discuss a personal grievance with their Supervisor or Department Head.

The employees' dissatisfaction with the outcome of these discussions will be referred by the Department Head to the Co-ordinator who will, if necessary, arrange for the matter to be submitted to the Chairmen's Committee of the Corporation for a decision.

Reporting Absence

The employee is personally responsible for advising his Supervisor or designate on each occasion necessitating an absence from duty. Failure to do so may result in forfeiture of pay, suspension or discharge from employment.

Sick Leave

Sick leave credits shall accumulate at the rate of 1½ days for each calendar month of employment.

There shall be no limit to the amount of sick leave credits an employee may accumulate.

> NOTE: A full calendar month of employment shall be one where an employee is employed on all working days in the calendar month and is not absent from his duties other than on account of illness, accident recognized by the Workmen's Compensation Board, vacation or other special leave authorized under the personnel policies of the Corporation.

When an employee is absent due to illness, the days absent shall be deducted from the accumulated sick leave credits. If the sick leave credit of any employee is exhausted during an illness, remuneration shall cease unless, in exceptional cases, remuneration is authorized by the Corporation.

After remuneration ceases, sick leave credits of 1½ days per month shall continue for a period of 6 months, from which the employee's portion of welfare premiums shall be deducted. Sick leave credits may continue at the discretion of the Corporation.

The Corporation reserves the right to ascertain the validity of claims made under this sick leave plan. Employees may be required to substantiate any absence for illness claim by the submission of the attending physician's certificate of illness.

Absence from employment due to maternity shall not be covered by this sick leave plan.

Absence due to an accident which is payable under The Workmen's Compensation Act shall not be deducted from accumulated sick leave credits, nor shall any sick leave pay be paid where an employee receives benefits from the Workmen's Compensation Board.

Welfare premiums shall be paid in full by the Corporation for employees on Workmen's Compensation benefits in excess of 6 weeks.

Sick leave credits due to an employee shall be payable only on retirement, or

(a) when an employee with 20 years or more of full service terminates employment, or

(b) in the event of death of an employee prior to retirement, to the next-of-kin or estate.

The cash surrender value in these circumstances shall be that amount of salary or wages equal to ½ the number of sick leave credits accumulated. In any event, this cash surrender value shall not exceed ½ year's earnings at the rate received by the employee at the time of qualifying for a cash surrender value.

Subsequent to December 31st of each year, employees will receive a memorandum from Payroll stating the number of days of accumulated sick leave credits.

Absence Without Leave

Any absence from work without the approval of the Department Head or his designate is considered absence without leave. In addition to forfeiture of pay, unauthorized absence may result in dismissal.

Hospitalization

Ontario Hospital Services Commission Insurance is compulsory. 66⅔% of the cost of Ontario Hospital Services coverage, at single or family rate, is paid by the Corporation.

Blue Cross semi-private coverage is available. If an employee desires Blue Cross semi-private coverage, 100% of this cost must be paid by the employee. The plan is open at time of hiring and thereafter on May 1st and October 1st of each year.

Health Services

Ontario Health Services Insurance Plan is compulsory. 66⅔%

of the cost of the Ontario Health Services Insurance Plan, at single or family rate, is paid by the Corporation.

On retirement, coverage of $1,000 is maintained by the Corporation.

Pension Plans

The Corporation is a member of the Ontario Municipal Employees Retirement System. Pension entitlement for new participants begins with the seventh calendar month of employment. Transfer of existing memberships shall become effective immediately.

Deductions for Canada Pension Plan are made in accordance with the Regulations under the Act.

Contributions and benefits of the two pension plans are integrated. The Corporation contributes an amount equal to the employee's contribution.

Joining these plans is a condition of employment.

Vacations

The Corporation's vacation plan for employees provides for two weeks' vacation after one full year of service, three weeks' vacation after seven years of service and four weeks' vacation after eighteen years of service. In determining eligibility for vacations, the date of May 31st of the current year is used. If service with the Corporation was less than one year as of May 31st, the employee shall be paid 1/12 of two weeks as vacation pay for each completed calendar month of continuous service. (Service starting prior to the 16th constitutes a calendar month for vacation purposes during the first year of employment.) This payment will be made on request by the Department to cover vacation granted, or payment in lieu of, for employees with less than one year of service.

The selection of vacation dates will, where practical, be approved on the basis of seniority in each department. Each department shall determine the number of employees who will be on vacation at one time.

Vacations shall not be cumulative from year to year, and employees with more than one year of service shall not draw pay in lieu of vacations, except under special circumstances which must be authorized by the Corporation.

Department Heads, Deputies and/or Assistants, so classified by by-law, shall be permitted to accumulate vacations from year to year to a maximum of two years' vacation credits.

When an employee terminates prior to the vacation period as defined, the following vacation pay schedules shall apply:

1. Less than one full year of service. Accumulated vacation pay as of May 31st, if not already taken, plus 2% of earnings from May 31st to date of termination.
2. More than one year, but less than seven full years of service. Accumulated vacation pay as of May 31st, if not already taken, plus 4% of earnings from May 31st to date of termination.

JULY REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Peel Memorial Hospital Board begs to report as follows:

1. The official opening of the expanded facilities of Peel Memorial Hospital was held on Sunday, May 10, 1970. The Honourable John P. Robarts, Prime Minister of Ontario, officiated. Approximately 500 people attended. The ceremony was televised throughout patients' rooms, and taped by Rogers T.V. A copy of the official opening brochure is being mailed to each member of County Coun-

cil. Warden J. Ivor McMullin unveiled a special plaque in the front lobby.

2. The hospital admits 40-45 patients per day, and receives approximately 125 visits per day from outpatients. Current figures indicate that 43% of all patients have come from Brampton, 10.5% from Mississauga, 28% from Chinguacousy, 3% from the remainder of the County of Peel, and the balance from municipalities outside of the County.

3. The number of calls for the Peel Memorial Hospital Ambulance Service during May, 1970, was 206. Of these, 96 were emergency calls. 210 people were transported and a total of 3,109 miles were travelled.

4. On August 7, 1970, the Canadian Council on Hospital Accreditation will re-examine Peel Memorial Hospital in order to determine the eligibility of the Hospital for renewal of its accreditation. Hospitals are re-examined every 3 years by the Council and full accreditation signifies that a hospital has surpassed minimum hospital care standards. While most hospitals in Ontario and in the rest of Canada are not accredited, Peel Memorial Hospital has been accredited for several years.

5. In order to cope with the changing requirements of a growing hospital, all hospital policy and procedural manuals are being updated and revised, and some supervisory re-organization is taking place. In the past few months, the "Plan in Event of Local Disaster" has been completely re-written, and on April 23, 1970, an exercise to test the new plan was successfully conducted. Further exercises will be conducted periodically.

6. At the end of May, the building program was approximately 95% complete. The Chronic Ward, which is to be in the renovated top floor of one of our older buildings, is incomplete. Renovations to Kitchen and Administrative areas are also incomplete. We expect that construction will be finished in July, not far from the original target date for the 30-month project.

7. At the June meeting of the Board of Directors of Peel Memorial Hospital, Mr. McQueen from Agnew Peckham & Associates addressed the Board regarding the role that each of the six hospitals in Halton and Peel Counties should play in providing future services to the community. The Role Study carried out by this firm of hospital consultants indicates that by 1974 an additional 200 hospital beds will be required to service central Peel County. It was suggested that these beds could be either

added to Peel Memorial Hospital, or put in a new hospital which could be built in the northeast Bramalea area.

8. Ambulance crews from Peel Memorial were at the site of the July 5 Air Canada crash most of July 5 and parts of July 6, aiding workers in the field. In addition, doctors from this community assisted in the identification of objects at the site.

9. The new 24-hour emergency service began June 16 and is working well. In a one-month period, 6,430 patients were treated at Peel Memorial as out-patients.

10. We are planning to open the first Chronic Care Nursing Unit at Peel Memorial Hospital in September, 1970. This will be a 51-bed unit, and admission criteria for it are currently being developed.

Received, July 16, 1970.

Reports

AUGUST REPORT OF THE BOARD OF HEALTH

To the Warden and Council of the County of Peel.

Your Board of Health begs to report as follows:

A special meeting of this Board was held at the Department of Health, Toronto, on July 30, 1970.

Present: Loughin, Williams.

Absent: McMillan, Robinson, Sawyer, Emerson, Underhill.

Also present: Dr. G. K. Martin, Executive Director, Public Health Division; Dr. E. W. R. Best, Director, Local Health Services Branch; Dr. A. F. Bull, Regional Medical Officer, Local Health Services Branch; and Miss E. Irwin, Senior Consultant, Public Health Nursing.

1. Present Public Health Programmes and additional Public Health Programmes for the County of Peel were discussed. A series of meetings were arranged between staff members so that a full report might be made to the Board of Health at their meeting to be held September 10, 1970.

The regular monthly meeting of this Board was held August 11, 1970.

Present: McMillan, Robinson, Sawyer, Williams, Emerson.

Absent: Loughin, Underhill.

2. We recommend approval for payment accounts totalling $58,444.43.

3. We are in receipt of a letter from the Department of Health approving one additional Public Health Inspector as a sharable expenditure. We recommend that this letter be filed.

4. We are in receipt of a letter from the Deputy Minister, Department of Health confirming statements made by Department of Health staff at a Board of Health meeting held July 7, 1970, as follows:

> "The level of public health services available to the people of Peel County is inadequate to meet the guidelines established by this Department in many areas of activity. For example, the programmes visualized by the Task Force Reports on

> Public Health Dental Programmes, School Health Services, Family Planning and Home Care have not been translated into viable programmes by your Board. In fact, in some of these instances, for example, Home Care and Family Planning, no activities have been commenced. I recognize the difficulties faced by your Board in obtaining sufficient funds for adequate programmes and would point out that in 1969 the Provincial average per capita expenditure was $4.11, whereas the expenditure for Public Health Services in Peel County was only $2.27. In my opinion, the approved budget for 1970 which allows a per capita expenditure of $2.66 will not be adequate to provide a satisfactory level of public health services for the people of your county."

We recommend that this letter be received.

5. We are in receipt of a letter from the Dental Director pointing out that the Department of Health will be unable to sponsor a Dental Hygienist this year. We recommend that this letter be received.

6. We are in receipt of a letter from Mrs. Mary Lyons, Etobicoke, withdrawing her request for sponsorship in Public Health Training. We recommend that this letter be received.

7. We are in receipt of a letter from Peel Memorial Hospital requesting a meeting with the Board of Health to discuss support services. We recommend that this letter be received and the Secretary was instructed to inform Peel Memorial Hospital that a meeting will be arranged following the September meeting.

8. A request from the Chairmen's Committee that the Board of Health liaise with the Ontario Health Units Association with respect to a standard Collective Bargaining Agreement for all Health Units in the Province of Ontario which require same was approved. The Secretary was instructed to forward the request to the Ontario Health Units Association.

9. The following reports were presented by the Medical Officer:

    (a) Activity—July.
    (b) Statistical—July.
    (c) Dental—July.
    (d) Dental—January 1 to June 30.

The cost of the feasibility study is not to exceed $700.00.

13. We recommend that minutes of meetings held July 30 and August 11, 1970, be confirmed.

AUGUST REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Peel Memorial Hospital Board begs to report as follows:

1. On August 7, 1970, Peel Memorial Hospital was re-examined by officials from the Canadian Council on Hospital Accreditation. Re-examination is carried out every three years in order to maintain accredited standing. Peel Memorial Hospital was first accredited a number of years ago, and has been re-accredited every three years since. Out of a total of some two hundred and twenty hospitals in the Province of Ontario eligible for accreditation, there are approximately ninety that have met the full accreditation standard.

2. Beginning in September 1970, Peel Memorial Hospital will resume its training program for nursing assistants. This program was previously in operation, but was dropped in 1967 because of a shortage of space. Space is again available, and the first class will contain twenty students. The course lasts ten months, and graduates will receive recognition as Registered Nursing Assistants from the College of Nurses of the Province of Ontario.

3. As reported in July, it is anticipated that an additional two hundred beds will be required by 1974 to service central Peel County. The location of these beds was discussed, and was referred to the Management Committee for further discussion.

4. During the month of July, there were 1,049 admissions to beds, 6,577 out-patient visits, 169 calls for ambulance service (of which 91 were emergency), and Peel Memorial Hospital ambulances travelled a total of 2,320 miles. The cost of a day's stay in a four bed ward during the month of July was $47.70, slightly higher than normal, the average monthly cost being about $46.00 per day.

Received August 21, 1970.

We recommend that this resolution be received.

(b) We are in receipt of a letter from the Peel County Board of Education regarding Resolution 69-148 of County Council, stating that the Board would be pleased to join with County Council in a meeting with Provincial Government officials to give consideration to the method of financing the cost of new schools in Peel County, and requesting County Council to arrange the meeting. We recommend that this letter be received and the Warden and the Clerk be authorized to arrange a meeting.

The Committee will also comment on Official Plans, Zoning By-laws and Plans of Subdivision directly to each municipality. The Committee will also have the authority to present to County Council a Budget for the year 1971."

In Committee of the Whole:

Clause 5 (a) was referred back to the Committee for clarification of wording.

(b) Clause 5 (c) of the General 1 Committee Report adopted July 16, 1970:

"We are in receipt of a letter from the Town of Mississauga regarding its objections to Town of Streetsville By-law 70-16. We recommend that this letter be received and referred to the County Engineer for his comments."
Engineer's Comments:

"A letter was received by General 1 Committee from the Town of Mississauga requesting the County's comments on the following recommendation of Mississauga Council:

'1. That the Council ratify the Clerk's decision to object to this by-law.

2. That the Town Engineer and the Planning Commissioner report on the effect this by-law has on the Town of Mississauga.'

This letter has been referred to the County Engineer for his comments by General 1 Committee. Streetsville's By-law which was passed on February 23, 1970, changes the T (Transitional Zone) to TR4 and TR5 which indicate medium high and high density. This will of course increase the population and thus the traffic on existing roads. However, we feel that it is the County's responsibility to improve their roads to accommodate this type of development provided the developer provides the local services and shares the cost of the County improvements. I would request permission to pass these comments to General 1 Committee plus any comments the Roads Committee would wish to make."

We recommend that the Engineer's comments be received and the Clerk be instructed to forward a copy to the Town of Mississauga.

(c) We are in receipt of a letter from the Minister of Municipal Affairs requesting Councils to pass by-laws to provide that subsection 4 of section 26 of The Planning Amendment Act, 1970, does not apply to land within a registered plan or plans of subdivision or part or parts thereof, thus exempting the areas designed in the by-laws from part-lot control. We recommend that this letter be received.

(d) We are in receipt of a letter from G. M. Farrow, Supervisor, Subdivision Section, Community Planning Branch, Department of Municipal Affairs, regarding an application by the Town of Brampton, for approval of a draft plan of subdivision. We recommend that this letter be received and the Clerk be instructed to acknowledge receipt of the letter and indicate Council's agreement with the procedure to notify the County of all proposed subdivision plans.

6. Property

(a) We are in receipt of a letter from the Minister of Public Works, replying to the County's May 21, 1970, resolution which requested the establishment of a provincial office in Peel County for Registry Office, Assessment and other Provincial purposes, and stating that although they are presently studying future accommodation requirements, they have not yet reached the point where they can seriously comment on the feasibility of consolidating provincial government offices in Peel County. We recommend that this letter be received.

(b) We are in receipt of a letter from Dr. L. M. Cherkas, Medical Officer of Health and Director, Peel County Health Unit, requesting some action to prevent unauthorized cars from using Health Unit parking spaces. We recommend that the Co-ordinator take over the administration of the Parking Lot at the rear of the County Buildings, and that he be authorized to set up a policy of operation.

Adopted as amended August 21, 1970.

We recommend that this letter be deferred for further study when equalization is dealt with.

(c) As recommended by the Chairmen's Committee at the meeting held July 30, 1970, we recommend the following:

1) That the letter from the Nurses' Association, Peel County Health Unit, replying to a letter forwarded to each Nurse from the Board of Health, and outlining five items still in dispute, be received.

2) That the attached guidelines re negotiations with the Nurses' Association, Peel County Health Unit, be approved and that the Warden, the Chairman of the Board of Health, and the Clerk be authorized to execute the Collective Agreement with the Nurses' Association incorporating the approved guidelines.

3) That the Board of Health be requested to liaise with the Ontario Health Units Association with respect to a standard Collective Bargaining Agreement for all Health Units in the Province of Ontario which require same.

5. **Publicity**

PEEL COUNTY HEALTH UNIT
REPORT OF THE BOARD OF HEALTH

September 10, 1970.

A community health programme is provided for the health supervision and protection of members of the family unit and reaches to all levels of society including the professions and the top of the executive ladder.

The programme is one of prevention which is carried out by teaching proper health concepts, detection of variations in mental, emotional, and physical well being and when these are found, direction to appropriate facilities for treatment.

Since the years from birth to the end of school are those in which we learn and form lasting habits, it seems logical to provide a comprehensive preventive programme for this age group. Such a programme is outlined in a report of "The Task Force on School Health Services, September 1968".

Any programme requires adequate personnel to implement it. It naturally follows that sufficient money must be available for salaries, housing, supplies, equipment, etc.

Peel County is certainly one of the most progressive and richest communities in Canada. Consequently, everyone is subject to the physical and mental strains of an expanding highly industrialized and urban society. To maintain earning and spending power, good health is the first requisite. This can be maintained through various preventive health measures undertaken by a health unit. The alternative to this is poor health resulting in loss of earning power, broken families, and the much more costly programmes of welfare, Children's Aid, institutions, etc.

Treatment is more expensive than prevention.

Why do we no longer have epidemics of diphtheria, smallpox, polio, etc? Because of preventive vaccination programmes by Health Unit personnel.

V.D., which once was under control, is now reaching epidemic proportions again. Why? Because health authorities slackened off in their preventive measures.

Tuberculosis—the Health Unit is responsible for follow-up of all cases and contacts in the community. This, along with better treatment, has reduced drastically T.B. patient bed requirements.

Threatened epidemics can be and are prevented by a proper programme carried out by an area Health Unit. i.e. Typhoid brought to Vancouver on a ship.

Can we do without our environmental health section? Who would inspect drinking water supplies, sewage installations (industrial, commercial, residential), dairies, schools, garbage disposal and dump sites?

The net result of a properly operated and efficient Health Unit is reflected in a healthy community and work force which provides the earning and spending power that gives us our high living standard. This high standard of living could be seriously prejudiced through epidemics, diseases, mental disturbances, poor sanitation. One improperly supported Health Unit could well be the weak link in the chain of the combined efforts of Health Units throughout this province and across Canada (Health Units which are adequately supported by the provincial government and practically all municipalities). The residents of Peel County deserve the best.

After consulting with Dr. Martin, Dr. Bull, and Miss Irwin of the Ontario Department of Public Health, I am presenting the following recommendations for discussion by the Board of Health of Peel County:

Total budget	$283,320.00

1. In New York City in 1920, there were 14,000 reported cases of diphtheria with 1,045 deaths resulting. The total cost to the City of New York was $1,027,000.00.

   In 1929 the Health Department carried on an immunization campaign and cost for three years was $375,000 per year but thereafter reduced to $10,000 per year.

   As a result, in 1939 only 543 cases of diphtheria were reported with only 22 deaths.

   Total cost from 1932 to 1939 was $493,875.00.

2. In the years 1911 to 1925, the Metropolitan Life Insurance Company spent $20,000,000.00 for health education, early diagnosis, and nursing service.

   Policy holders death rate declined 30%, or twice the reduction in the general population.

   Saving to the company and policy holders has been assessed at $43,000,000.00.

Life expectancy was increased by five years for the general public. Life expectancy was increased by NINE years for policy holders.

3. New York City, 1935. Lobar pneumonia caused the death of 2,039 males. Of these, 809 were in the 20-50 year group and represent an economic loss of some $20,000,000.00.

   A request of $500,000.00 for pneumonia control work was made and was estimated to save $5,000,000.00.

4. In 1937, $2,000,000.00 was spent for the prevention and control of syphilis.

   Syphilitic blind —$10,000,000.00 per year.

   Syphilitic insane—$32,000,000.00 per year.

5. Detroit 1936 spent $200,000.00 per year over a five year period for early T.B. case-finding, control and hospitalization.

   The resulting saving was $1,400,000.00 per year.

6. If our current knowledge were completely used, the potential saving in lives is staggering. The greatest saving would be in the adolescent and young-adult age group.

7. Dental programmes are probably the easiest to illustrate. A recognized example is that a population of 200,000 will spend $4 million on dental care.

   A preventive dental programme will reduce tooth decay approximately 8%, thereby causing a direct saving to the general public of approximately $300,000.00 per year.

   In other words, a $10 return on a $1 investment.

   FRUGALITY IN PUBLIC HEALTH MATTERS IS PENNY WISE AND POUND FOOLISH.

8. Last year in Peel County it cost $5.04 per child per day to keep a child in a foster home. If we take a broken family with five children in foster homes, the cost is $9,172.80 a year for the children only. A Public Health Nurse can look after approximately 40 such families at any one time. She could be instrumental in keeping the family together and self-supporting. Her maximum salary is $9,000.00 per year.

Your Committee on Good Roads begs to report as follows:

The regular monthly meeting of this Committee was held on September 10, 1970.

Present: Gardhouse, Leavers, McMullin, Robinson and Speck.

Absent: Archdekin.

1. We recommend for payment accounts totalling $506,893.84.

2. We are in receipt of County Council Resolution 70-100 in regards to the writing of all resolutions and motions. On motion this resolution was referred to General 1 Committee — Legislation for clarification.

3. The Clerk reported that By-law 1468 making Southdown Road a "Controlled Access Highway" had been passed by Council in 1958 but never submitted to the Ontario Municipal Board. The Solicitor was instructed to forward this by-law and other necessary documents to the Board requesting approval of the said by-law.

4. The building known as "The Forge" was discussed and we recommend approval of the following resolution passed by your Committee:

"Whereas, after a great deal of research with respect to "The Forge" has failed to establish this property as having had any historical significance to the area and County;

Therefore, be it resolved that the County demolish the Forge Building and sell the land, retaining sufficient area for road improvements at the determination of the County Engineer."

In Committee of the Whole:

Amendments to Clause 4:

Moved by G. C. Gardhouse, Seconded by T. P. Miller;

Whereas no plans have as yet been decided as to work or land required on the Terra Cotta Road, therefore be it resolved that the property known as the "Forge" be leased to the Township of Chinguacousy to be operated and maintained as a parkette for one year.

The rental is to be established at $1.00 per year.

Lost.

Moved by J. E. Archdekin, Seconded by H. F. Loughin;

Therefore, be it resolved that the County sell the property known as the "Forge".

Not voted on.

Moved by J. I. McMullin;

Resolved that we defer the motion to demolish the property known as the "Forge" and ask the Township of Chinguacousy to consider taking over this road as a Township road and buy the "Forge" property.

Carried.

5. The Chairman and Engineer were instructed to set a date for a road inspection in October and to report to Council at the next session. Road Inspection to be held November 3, 1970.

6. We are in receipt of a letter from the Town of Mississauga requesting access from Steeles Avenue to the Clairville Conservation Area. We recommend that the Town forward their request to the Conservation Authority and be notified that the County would have no objection provided the access was properly planned.

7. A request from Caledon East that steps be taken to prevent trucks from driving on the sidewalk (paved shoulder) and that an overhead lighted school crossing sign be erected was referred to the Engineer for a report at the next meeting of the Committee.

8. A letter from the Georgetown District Naturalist Club was received requesting that trees on Steeles Avenue between McLaughlin Road and Mississauga Road not be removed. We recommend the Club be notified that it is the intention of the County to save as many trees as possible, and that the alignment of the road is set by safety conditions, damages caused to adjacent owners and cost, as well as the location of the trees.

9. We are in receipt of a resolution from the Town of Mississauga requesting that Mississauga Road north from Dundas Street not be widened nor relocated and that a cost analysis of proceeding with the Construction of the Fifth Line be prepared in lieu of any changes to Mississauga Road. The Engineer was instructed to notify the Town that the cost analysis requested is being done and also to present the proposed plan of Mississauga Road to the Town Council.

In the Committee of the Whole:

Moved by C. M. Murray;

Whereas Rose Beatrice Croxon has requested consent from the Mississauga Committee of Adjustment for a division of land in Lot 3, Range 3, N.D.S., and the County's requirements for road widening are unknown at this time;

Be it resolved that the County request the Committee of Adjustment to make the following a condition of their consent:

A dedication for road widening purposes shall be made to the County at such time as the required widening is determined, said widening not to exceed 27 feet. This agreement shall be appended to the deed of conveyance.

The Chairman of the Good Roads Committee moved that Clause 11 be deferred. Carried.

12. We are now in receipt of the estimated cost of the Halton-Peel boundary study north of Highway 7 as requested by Council and we recommend approval of the following resolution passed by your Committee:

"Resolved that we agree to accept our share of the cost of doing a boundary feasibility study of the road between Halton and Peel, total cost to be $8,000.00, Peel share $4,000.00 less subsidy."

13. We are in receipt of a letter from the Town of Streetsville in regards to the Functional Planning Study for the Queensway and we recommend that the Engineer's report as follows be approved:

"The Town's only objection to the planning study is that there is no direct connection to Mississauga Road. There is an interchange at Southdown Road and this would appear to satisfy the requests of all concerned, that as much traffic as possible be diverted away from Mississauga Road and directed towards the Erin Mills Parkway. Also, construction on this portion of the Queensway would appear to be at least 10 years in the future, but land should be reserved and other facilities planned in conjunction with this road. This is the primary reason the study was undertaken."

14. We recommend approval of the following resolution passed by your Committee:

"Resolved that the Road Chairman, the Treasurer and the Road Superintendent be authorized to sign the Petition for Interim Subsidy."

15. As we have been unable to negotiate a satisfactory settlement with the Yellow Briar Restaurant for land required, we recommend that the necessary by-law for approval to expropriate be prepared.

16. We recommend approval of the following resolution passed by your Committee:

"Resolved that the County purchase land on the Queensway from Welton Ltd. at a price of $14,250.00, the price set by an outside appraisal and having an assessed value of $32,500.00."

17. The Engineer reported that trucks parking on the east side of Cawthra Road north of Lakeshore Road were causing damage to a retaining wall. We recommend that the necessary by-law prohibiting parking be prepared after receiving comments from the Town of Mississauga.

18. The purchase of property at the Malton Four Corners was discussed and we recommend approval of the following resolution passed by your Committee:

"Resolved that a representative from the Department of Highways, Ontario, and the County Right-of-Way Officer be authorized to have a final meeting with the property owners in Malton that would be injuriously affected by the diversion of Derry and Airport Roads, and which are not in the path of the diversion, to discuss if they have a final proposal to present to County Council and the Department of Highways, Ontario, for their consideration. This has resulted from a request by the land owners in Malton."

19. We recommend approval of the following land purchases:

Road 11—West of Belfountain	
Glen McBride (0.58 Acres)	$ 580.00
Bass Bridge—Belfountain

"WHEREAS the present subsidizable per diem rate relative to nursing homes of $10.50 is unrealistic;

AND WHEREAS a current realistic per diem rate would

1. Ensure that nursing homes would receive a more realistic rate for indigent patients, thus encouraging them to accept indigents and relieve the overcrowded hospital chronic bed care situation,

> 3. Improve public relations between Homes for the Aged and nursing homes by the admission of indigent persons to nursing homes at a current realistic rate, thus offsetting resentment from nursing homes when a full-pay resident is admitted to a Home for the Aged from a nursing home;

   (a) Statistical — September, 1970.

OCTOBER REPORT OF THE CHILDREN'S AID BOARD

To the Warden and Council of the County of Peel.

Your Children's Aid Board begs to report as follows:

The full Board of the Society met on October 14, 1970, with the following present:

From County Council: Allan, Black, Parsons.

Non-Council Members: Mrs. K. Bellian, B. Deacon, Mrs. F. Diver, C. Jenkins, S. Rutherford, R. Searle, Mrs. M. Tkachuk, D. Westlake.

1. The Finance Committee report showed the Society operating within the Estimates and should end the year with a small surplus.

2. The report of the Child Care Committee indicated the number of children in care continues to increase.

3. The detailed breakdown of comparative costs of the 51 Children's Aid Societies received from the Provincial Department was analyzed from the standpoint of its relationship to the Peel Society. This was presented to the Board for study. This indicates that the Peel Society, while now in the big eight in terms of size of population served, is well below that numerical standing in terms of total dollars costs and is next to the lowest in per capita costs of operation. Only one other Society is lower in this respect. Peel's cost per capita is less than half of the average for the 51 Societies in the Province. The ratio of employees to population is almost one-half of the provincial average.

Forty-five items of a comparative nature were assessed and in a great number of these the Peel Society is well below the Provincial average in costs of these various items. The Board of Directors will make this analysis available to County Council members as it is felt that it will be of considerable interest to the County in terms of value received for dollars spent.

4. The Manager reported on the Annual Conference of Executive Directors at Sundridge on Septembr 27 to 29. At this time meetings were held with the authors of the Urwick-Currie Report on Management Procedures in Children's Aid Societies and also with the Administrative Director of the Programme Planning and Budget Systems instituted by the Treasury Board throughout the entire Provincial Government system. This places the Urwick-Currie Report on Children's Aid Societies in a different context, as it is now seen that the management systems proposed by that report are now part of a larger systems procedure throughout all branches of Provincial Government.

5. The Manager reported on his participation in the Family Counselling Committee of Peel Community Services and the plans to hopefully have set up a Family Service Agency in the County in 1971, and hopefully by mid-summer.

6. Sincere appreciation was expressed by the Board for the excellent interior painting job now proceeding at the Nelson Street building. This, along with the exterior painting has considerably benefitted the working conditions for staff. An official communication of appreciation will be coming from the Board to the County.

7. A certificate of appreciation has been received by the Manager and staff from Sheridan College in recognition of contribution to the advancement of knowledge and understanding of students in the Social Services Course.

Received October 22, 1970.

Reporting Member.

J. I. McMULLIN,

OCTOBER REPORT

OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Peel Memorial Hospital Board begs to report as follows:

1. During the month of August, the Board received the resignation of Mr. E. R. G. Burgess, who had been a member of the Board of Directors for about five years. Mr. Burgess had been transferred to Edmonton and has now been replaced by Mr. Preben Von Bulow. Mr. Von Bulow was the runner-up in the previous Annual Meeting's election for Directors.

2. The Board in the month of August approved a six point plan of objectives for the year 1971. These objectives are set annually, usually based on recommendations from the Administrative Staff and are guides to the operation of the hospital for the forthcoming year for the development of special goals to be met. One of the objectives is to review and assess utilization and efficiency of the major equipment and facilities acquired during the recent expansion program. Another was to strengthen the existing hospital safety program with special emphasis on patient safety, and also study the present long term need for hospital services in this area in light of the Agnew-Peckham Role Study conducted in 1970.

3. The Board of Directors received a request from the Provincial Minister of Health to appoint a person to the Management Advisory Board of the Lakeshore Psychiatric Hospital. This is seen as a new development in establishing a closer administrative tie with the

communities of provincially operated psychiatric hospitals and the involvement of lay management. The Board subsequently appointed Mr. R. Honey as representative of Peel Memorial to this Management Advisory Board at Lakeshore Psychiatric Hospital.

4. The building program is now in its final stages of completion with only some renovated areas to be completed as of October 10th. One of the most recent areas to be completed was the 51 bed Chronic Unit. This Chronic Unit is the first for Peel Memorial and plans are being made to admit the first patient to this Unit on October 19th. Admission policies to this Unit are being defined and the tenure of stay will evolve around case conferences with the family physician, consultants and paramedical personnel.

It is anticipated that the expansion program will be completed within the next two months.

5. The month of September saw the introduction of third year interns from the Credit Valley School for Professional Nurses located in Mississauga. These interns began their clinical experience tour at Peel Memorial Hospital on September 14th. Credit Valley School of Nursing is a regional school for professional nurses and is a joint effort on the part of Mississauga Hospital, Oakville Trafalgar Hospital, Peel Memorial, Milton and District Memorial Hospital, and Georgetown and District Memorial Hospital.

On September 21st, Peel Memorial re-introduced its Registered Nursing Assistants School with an enrolment of 21 students. This program is ten months in duration and these students will graduate in June 1971.

6. During the month of September, agreement was reached in the labour contract between the Service Employees Union, Local 204 and Peel Memorial Hospital. This contract expired on June 30th, 1970, and covers Dietary, Housekeeping, Maintenance, Linen, Registered Nursing Assistants, and Orderlies. The new contract is for a 30 month duration and salary cost increases amount to 5.6% in 1970, 7.3% in 1971 and 6.1% in 1972. Changes in the contract involved an increase in the Hospital's participation in health care insurance premiums from 66⅔'s percent of the cost up to 74% of the cost, the balance being paid by the employee himself. There were some slight changes to the annual vacation policy in that an extra week would be granted after seven years, instead of the previous eight. It is estimated this new agreement will add an additional cost of $51,000 in 1970, $108,000 in 1971 and $94,000 in 1972 to the operating costs of the hospital.

Received October 22, 1970.

Reporting Member.

Warden.

We are in receipt of a reply from the County Solicitor stating that he has been unable to contact the President of A. E. Wilson & Company Limited as yet.

(b) County Council Resolution 70-97, passed August 21, 1970, was considered:

"Whereas, the Toronto International Airport is increasing in passenger population at a rapid rate;

And whereas, the County of Peel has the responsibility for a great number of access roads;

And whereas, the Province of Ontario limits the total amounts of monies to be expended on County Roads, and improvement of Airport Road, Derry Road, etc., would deplete the County Road Budget to the detriment of other roads in the County;

Be it resolved that the Department of Transport be requested to levy a passenger leaving levy on each and every passenger using the facilities of Toronto International Airport, and that 25¢ per passenger of this levy be transmitted to the County of Peel for the express purpose of improving County Roads that service the Airport." We are in receipt of a reply from the Department of Transport stating that there is no authority whereby the Ministry can make a contribution to the municipality for road improvements.

We are in receipt of a reply from H. G. Chappell, M.P., Peel South, suggesting that the County approach the problem on the basis of the cost to improve the roads leading to the airport, namely that there should be a grant if the Federal government wishes these roads to be brought up to today's needs to service the airport.

We recommend approval of the following resolution passed by your Committee:

"Resolved that the Warden, Chairman of the Good Roads Committee and the Reeve of the Township of Chinguacousy attend on the Minister of Transport in Ottawa to discuss matters regarding Toronto International Airport."

In Committee of the Whole:

Moved by L. H. Parsons:

Resolved that the name of Mayor Archdekin be added to the delegation to meet the Minister of Transport re airport levies.

Carried.

NOVEMBER REPORT OF THE CHILDREN'S AID BOARD

To the Warden and Council of the County of Peel.

Your Children's Aid Board begs to report as follows:

A meeting of the full Board of the Society was held Wednesday, November 11, 1970, with the following present:

From County Council: H. M. Allan, W. W. Appleton, G. C. Gardhouse and E. F. Leavers.

Non-Council Members: Mrs. W. Bellian, B. Deacon, Mrs. F. Diver, F. Dowling, C. Jenkins, R. Searle, Mrs. M. Tkachuk and D. Westlake.

Due to a previous meeting, J. E. Archdekin, L. Van Tichelen and T. P. Miller were unable to attend.

1. The Finance Committee reported that a comparison of nine months' expenditure compared to the Estimates indicated that the Society was operating within the Estimates and will end the year with a surplus. This is due to the fact that the money budgeted for special institutional care for wards need not be all utilized because of the efforts placed by the Society in returning children from treatment institutions to the group foster home programme. The end result of this will be a saving at the end of the year in the budget for institutions.

2. A report was received from those attending the Regional Board Members Conference held in Brampton on October 17, 1970. Eight surrounding Society Board Members participated in the Conference, which was hosted by the Peel Society.

3. A report was received in respect to Bill Number 182 now before the Legislature and which has now received second reading. This Bill eliminates the "Child Welfare Review Board" and replaces it with an Advisory Committee to the Minister. It gives the Director of Child Welfare the authority to approve or disapprove of Children's Aid Estimates. If the municipality or the Society do not agree with the Director in this respect the appeal is to a special committee to be appointed by the Minister rather than to the Appeal Review Board which was previously the situation. This committee, however, has advisory powers only and the Minister does not have to accept the recommendation. The Minister's decision is final in respect to the Estimates.

4. A report was received on the Mullins Report. This report was prepared by the Minister's Advisory Committee on Adoption and Foster Care which the Minister appointed two years ago. The Child Care Committee of the Society will give close study to this for any recommendations required in respect to policy change.

5. The Manager reported on his attendance as an Ontario delegate

to Millieu 70 held in Winnipeg during the week of October 25, 1970. The 600 delegates from across Canada were chosen from all of the various professions and disciplines working with children and youth.

6. The Manager reported further on the work and efforts of the Family Counselling Committee of Peel Community Services of which he is a member. The Committee will be recommending to Peel Community Services the formation of a Family Service Agency to do family counselling in the County and hopefully to be in operation in 1971. Funds for this would come from various sources and it is hoped that County Council will lend their support.

7. A committee was formed to plan for the Annual Meeting of the Society which will be held March 3, 1971.

8. The Manager's report in regard to services indicated that for the first nine months of 1970 there were 10,000 more days' care in boarding foster homes than in the same period last year.

9. The Executive Committee of the Society will meet shortly to continue further discussion in respect to long range planning for the Society including the necessity of accommodation when the lease expires at the end of 1971 on the building at 118 Queen St. W., Brampton, Ontario.

Received, November 19, 1970.

L. H. PARSONS,
Reporting Member.

J. I. McMULLIN,
Warden.

NOVEMBER REPORT OF THE PEEL MEMORIAL HOSPITAL BOARD

To the Warden and Council of the County of Peel.

Your Peel Memorial Hospital Board begs to report as follows:

1. **Garbage Handling Equipment**

During the last month, the Hospital started up its mechanical waste destruction and conveyance system. This is a mechanical system entirely new to Canada for the handling of waste materials. With the exception of a high preponderance of glass and certain hard metal objects, this system handles all hospital waste. It is the first total installation of its kind in North America.

The system's functioning principle is that all waste materials are dumped at the collection point into a pulverizing hopper. The waste materials are pulverized under a vortex of water, the pulped material is then transmitted in a four inch pipe, consisting of 95% water and 5% solids to a central dehydration room (the freight entrance at the rear of the hospital). The dehydrated pulp comes out small and popcorn-like in appearance and all materials are reduced to a common factor. The pulp is automatically ejected into a bulk lift hopper, then subsequently transported by highway truck to the sanitary land fill project.

The advantages of the system is that there is no handling or internal carting of garbage since it is conveyed by pipe throughout the hospital. Also all materials are reduced to a common factor, eliminating the need to specifically dispose of such things as hypodermic syringes and other hospital matter that must not get into unauthorized hands. The bulk of the garbage to this system is reduced by 80%. Conventional garbage handling methods in the hospital, would result in about 60 cubic yards per day of garbage being trucked away. With this system, we expect to truck away approximately 3 to 5 cubic yards per day.

2. Accreditation Program

The Hospital received word that its accreditation survey, conducted in August 1970, has been completed, report filed, and Accreditation for another three years has been granted to Peel Memorial.

3. Ontario Hospital Association Convention

This Convention was convened on October 26, 27 and 28, 1970, and has always been recognized as a very important event in the lives of hospital people. This year's Convention was no exception and it was found to be a tremendous asset in exchange of ideas, presentation of new things to come etc. Official delegates from Peel Memorial were Mr. Stan Eisel, President, Mr. James Phair, Vice-President and Mr. Howard K. Krafft, Administrator. Also, most of the management staff of the hospital were in attendance at one function or another. This Convention is also the Annual Convention of the Hospital Auxiliaries of the Province of Ontario. The Hospital Auxiliary of Peel Memorial played its usual role, and delegates from our Auxiliary were in attendance and participating in the programs.

Received, November 19, 1970.

ENGINEER'S REPORT ON MALTON FOUR CORNERS

On Wednesday, November 25, the Committee met with the Minister of Highways and the Minister of Municipal Affairs as per Clause 7 of the October Report of the Committee.

The three items as requested in the resolution were discussed and the decisions of the Ministers were as follows:

1. The construction of the proposed highways in the area will not reduce the traffic through the Four Corners substantially as the majority of the traffic originates or terminates in the immediate area.

2. Subsidy on the land use study is not available from either Department.

3. In regards to County commitments to road expenditures in light of Mississauga's application for city status, agreements could be drafted between the Town of Mississauga and the County to protect the County's interest.

In addition, a temporary relief of congestion in the area was discussed and the Minister assured the Committee that subsidy for such a scheme would be made available under normal by-law approvals upon the design, the estimated costs and the term of life being submitted and approved to the Department. The Minister also recommended that the County commence purchasing the required lands for the ultimate scheme.

Further to the above a meeting was held between D.H.O. staff, the Consulting Engineers and County staff. One of the abandoned schemes in the report, that of widening the intersection in all four directions to include left hand turning lanes was discussed and approved in principle. The Consultant pointed out that one of the largest expenses in this scheme is to remove the hydro lines from the road as all existing right-of-way would be required. The cost of this relocation will be between 100 and 150 thousand dollars but it would be placed underground or on the ultimate right-of-way so as not to be moved again. The total cost of the project would be approximately 300 thousand dollars and would reduce the congestion to a tolerable level until approximately 1975. In order to take advantage the work should start immediately as the length of life is not extended by a later starting date, that is no matter when the work is done, the scheme is obsolete by 1975. It is hoped by this time the ultimate scheme would be approved, designed and the necessary lands acquired in order to proceed with construction.

If this is approved by the County, the Consultants will compile the necessary data for submission to the D.H.O. and upon their approval would commence the design immediately.

"R. W. Knight", P.Eng.,
County Engineer

The first meeting of the Council shall be held on the third Tuesday in January in the Council Chambers, County Buildings, Brampton, at 2 o'clock in the afternoon or at such hour as may be fixed by by-law, or on such day prior to the third Tuesday in January and at such hour as may be fixed by by-law.

2. The subsequent sessions of the Council shall be held at such hour as may be fixed by the Council upon adjournment at the previous session.

3. The Warden may call special meetings of the Council as provided by statute, and shall give at least one week's notice thereof to each member of Council by posting the same to the Post Office address of said member.

   (a) In cases of emergency, the Warden may call such special meeting in such way as he may deem best without regard to the time limit.

   (b) In the notice calling such special meeting, the business for which the same is called shall be specified, and no other business shall be considered at such special meeting unless all members are present and a two-thirds vote obtained.

4. A majority of the whole number of members required by statute to constitute the Council shall be necessary to form a quorum.

5. During the session of the Council, no person but a member thereof and County officers shall be allowed to come within the bar without the permission of the Council.

6. When the Council adjourns, the members shall keep their seats until the Warden or Chairman leaves the chair.

7. If, after the expiration of fifteen minutes after the time appointed by the Council to meet, the Warden shall be absent, the

Clerk shall call the Council to order, when a Chairman shall be chosen who shall preside until the arrival of the Warden, and such Chairman shall, while in the chair, have vested in him all the powers given by these Rules to the Warden.

8. If, after the expiration of half an hour after the time appointed for the Council to meet, there shall not be a quorum present, the Warden, if present—or in his absence, the Clerk—may take the chair, and adjourn the meeting with the consent of a majority of the members present to some stated time.

12. The Warden shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the Council, and when called upon to explain a point of order or practice, shall state the rule applicable to the case, without argument or comment. If objections be taken to his ruling, he shall submit it to a vote of the Council in the following words: "Shall the ruling of the chair be sustained?" Members may discuss the point of order before the vote is taken.

13. It shall be the duty of the Warden, whenever he understands a motion introduced to be contrary to the rules of the Council or inconsistent with the matter to which it is intended to refer, to apprise the Council thereof before such motion is debated upon or put, citing the rule applicable to the case.

COUNCIL MOTIONS AND AMENDMENTS

40. Motions to adjourn Council from one session to another must be in writing.

41. All motions shall first be read by the mover without debate, then handed to the Warden, Chairman or Clerk for re-reading and action.

42. After the motion has been read by the Warden, Chairman or Clerk, it shall be deemed to be in possession of the Council or Committee, but may be withdrawn by the mover at any time before decision or amendment, with the permission of the Council or Committee.

43. Only two amendments at any one time shall be moved to any motion before the Council or Committee, and amendments shall take precedence of original motions, and shall be put in the reverse order in which they are made.

44. In the event of an amendment being made to any motion and an amendment to the amendment, the amendment to the amendment having been declared lost by the Warden, Chairman or Clerk, it shall be in order for another amendment to the amendment to be moved before the amendment to the motion is put, but no other amendment to the amendment shall be in order.

45. Each amendment and motion shall be voted on separately. The defeat of any amendment shall not be equivalent to the carrying of an original motion. Any motion or amendment before being declared carried must receive a majority of the votes of the members present.

46. No subject shall be discussed or voted on during the same session of Council after a vote has been taken thereon, unless by a two-thirds vote of the members present.

47. A motion for adjournment shall always be in order except: (a) When a member is in possession of the floor; (b) When the yeas and nays are being called; (c) When the members are voting; (d) When the adjournment was the last preceding motion.

48. When a question is under debate, no motion shall be received unless it be: (a) A motion for adjournment; (b) For the previous question; (c) To lay on the table; (d) To postpone the question to a certain day; (e) To refer; or (f) To amend; which shall severally have precedence in the order in which they are named, and the first three of which shall severally be decided without debate.

49. When a motion to lay on the table prevails, the question so delayed may be called up again on any subsequent day, by motion, as unfinished business.

50. Every motion when seconded must be received and put by the Warden or Chairman in Council, except in cases provided for by these rules.

COMMITTEE OF THE WHOLE

51. The rules of the Council shall apply to a Committee of the Whole except the rule limiting the times of speaking and taking yeas and nays. It is the privilege of any member to make a written motion in Committee of the Whole and to require the same to be recorded in the Minutes.

52. In Committee of the Whole, a motion that the Committee rise shall always be in order, and shall take the place of any other motion without debate.

53. Whenever the Council shall go into Committee of the Whole, the Warden or Chairman shall leave the chair, and shall, before leaving the same, appoint a Chairman to preside, who shall have the same authority in the chair of the Committee as the Warden in the chair of the Council. On going into Committee to consider the report of a committee, no member of that committee shall be called to the chair.

54. All amendments made in Committee shall be reported by the Chairman before leaving the chair, which will be referred to the Council for concurrence.

55. When a member introduces a bill, petition or motion upon any subject, and the same is referred to a special committee, the member introducing the bill, petition or motion shall be named to the committee.

TAKING THE VOTE

56. In recording the yeas and nays, members shall vote by standing for the affirmative or negative until the Clerk has recorded the count of votes, and before announcement of the vote by the Warden, the Clerk shall, if requested, read the vote so taken.

57. Members shall always take their places when a division is called for.

58. Appointments by the Council shall be made by open vote as the Statute directs, and the first person obtaining a majority of the votes cast shall be declared elected.

BY-LAWS

59. Every by-law shall be introduced on the recommendation of an adopted report, or by an order of the Council, and shall be detailed on the agenda as to the purpose.

60. Every by-law shall receive three readings previous to its being passed, which readings may take place in one day and may be taken as read.

61. After a by-law has been read three times, it may be committed to a Committee of the Whole.

62. By-laws committed to a Committee of the Whole shall be read throughout by the Clerk or Chairman and debated by clauses, leaving the preamble and title to be last considered.

63. All amendments made in Committee shall be reported to the Council by the Chairman standing in his place. After the report has been received, it may be subjected to debate and amendment in the Council before the question to pass, sign and seal shall be decided.

64. The Clerk shall note the readings and the time on the back of the by-laws.

65. Every by-law for the purpose of borrowing money and levying the County Rate may only be passed with the votes cast for the affirmative representing at least two-thirds of the total number of votes cast. (The question to pass, sign and seal all borrowing by-laws and by-laws levying the County Rate will automatically require a recorded vote. The record of such recorded vote shall be attached to each by-law.)

PRIVATE OR LOCAL BY-LAWS

66. By-laws of a private or local nature shall be introduced by a petition, to be presented by some member.

67. Any person whose property may be affected by any private or local by-laws shall have the privilege of appearing before the com-

mittee or Council to make objection to such by-law either in person or by agent.

68. Any municipality requiring a by-law confirmed for closing a road allowance shall petition the Council to that effect, and produce evidence satisfactory to the County Council that a by-law in accordance with the statute providing for the same has been passed.

GENERAL

69. Papers laid before this Council, or referred to a committee for their consideration, are of right to be read once by the Clerk or Chairman at the table, and shall afterwards, upon motion of any member, be re-read and may be further dealt with as the Council directs.

70. No grant of money for any purpose shall be given by this Council on a simple motion, resolution or report, but must first be recommended to the General 2 Committee for consideration and action.

71. Any standing rule or order of the Council may be suspended by a vote of two-thirds of the members present, with the exception of Rule 17.

72. Standing Rule 17 may be suspended by a vote of two-thirds of the total number of votes in Council.

73. In all unprovided cases in the proceedings of Council or in committee, Bourinot's Rules of Order shall be followed and, in such cases, the decision of the Warden or other presiding officer shall be final and acquiesced in without debate.

74. All motions or resolutions which are to be sent to an outside governing body must be first referred to the relevant committee or to a committee appointed for the consideration of such motions or resolutions.

75. All individuals or delegations requiring a hearing before Council, on a matter pertaining to business, shall make previous arrangements with the Clerk in order that the regular procedure may not be unnecessarily interrupted.

76. Any inquiries requiring an answer in the minutes should be presented in writing.

77. Any committee is authorized to spend up to $500.00 without first having had the sanction of the County Council.

78. All correspondence, whether delivered by a County Councillor or through normal channels, must go through the Clerk's Department, be duly stamped as received, and properly signed and recognized as sent by the sender.

COUNTY OF PEEL AUDITOR'S REPORT

To the Members of Council, Inhabitants and Ratepayers
of the Corporation of the County of Peel

We have examined the 1970 financial statements of the Corporation of the County of Peel which are listed on the attached index. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation of the County of Peel as at December 31, 1970, and the results of its operations for the year then ended, in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.
